Vsebina: Študenti bodo razvili sposobnosti spremljanja ter prepoznavanja aktualnih znanstveno raziskovalnih problemov, sodobnih metod raziskovanja, najnovejših rezultatov in uporabe najnovejšega znanja na področju nanoznanosti in nanotehnologij. Študenti se bodo soočili tudi z izzivi izdelave pisnega pregleda obravnavanih vsebin v obliki članka ter s posredovanjem ugotovitev v obliki neposrednega ustnega komuniciranja.	Content (Syllabus outline): Students will develop the ability to follow and identify current scientific research problems, modern methods of research, the latest results and the use of the state-of-the -art knowledge in the field of nanoosciences and nanotechnologies. Students will also face with the challenges of writing a written review of the selected topics as a paper and by sharing of their findings with oral seminar presentation.

Cilji in kompetence:

Predmet nadgrajuje pridobljeno znanje pri predmetih Seminar I in Seminar II, cilj predmeta je pripraviti pisno celostno predstavitev svojih bistvenih raziskovalnih rezultatov doktorske disertacije v obliki članka ter posredovanje navedenega v obliki ustne predstavitev.

Objectives and competences:

This course upgrades the knowledge received at Seminar I and Seminar II, its aim is to prepare a written comprehensive presentation of the essential research results of the doctoral dissertation as a scientific paper. An important goal is also the ability to present their findings in the form of oral presentation.

Predvideni študijski rezultati:

Priprava znanstvenega članka za celostno predstavitev svojih bistvenih raziskovalnih rezultatov doktorske disertacije, njegova predstavitev ter suverena ustna komunikacija o obravnavanih vsebinah.
Dokazano celovito znanje z raziskovalnega področja študijskega programa.

Z mentorjem uskladi datum in uro seminarja ter na info@mps.si najmanj en teden pred predstavitvijo sporoči datum, uro, prostor in naslov seminarja. Predsednik komisije je predstojnik študijskega programa ali njegov pooblaščeni predstavnik, člena komisije pa sta tudi mentor in praviloma vsaj en član komisije za oceno disertacije. Po opravljenem Seminarju III odda v tajništvo MPŠ izpolnjen in podpisani zapisnik Seminarja III, izpitno prijavnico za Seminar III, seminarsko nalogo (članek s področja doktorske disertacije) ter natisnjene prosojnice seminarja</p>	70 %	Seminar (scientific paper on the topic of the doctoral dissertation)

		Seminar III assessment is based on the presentation of the student's doctoral project in front of a committee of three IPS professors, where the student also demonstrates comprehensive knowledge from the research field of the study programme. The student and the supervisor jointly set the date and time of the seminar. At least one week before the presentation, the student shall communicate the date, time, room and title of the seminar to info@mps.si. The Head of the study program or his authorised representative is the president of the commission, supervisor and usually also one of the members of the commission for the evaluation of the dissertation are also members. After presenting Seminar III, the student submits to the IPS Secretariat the filled out and signed minutes of Seminar III, Seminar III exam application, printed seminar work (scientific paper on the topic of the doctoral dissertation), as well as printout of slides.
